

I am so excited to announce that Equine Massage Works is launching July 2021. I am a fully qualified and insured equine massage and rehabilitation therapist and have a degree in equine science from Hartpury College. Being around horses for over 20 years it is a privilege to be able to start my dream career!

Equine Massage

Massage is the therapeutic application of hands-on techniques to manipulate the musculoskeletal tissue. Like with human sports massage, the same principles can be applied to horses. Equine sports massage can be used on any horse from the “happy hacker” to the competition horse. A combination of different strokes and techniques are used on the horse to relieve tightness, enhance form and promote relaxation. Equine massage has so many benefits for your horse including :

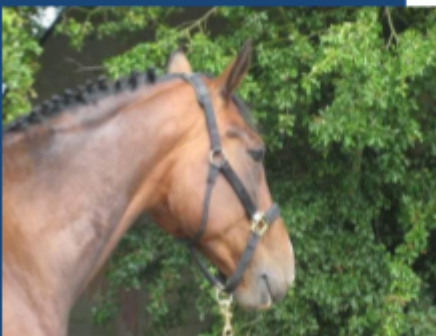

- Greater flexibility
- Improved posture, circulation, hair coat and muscle tone
- Injury prevention
- Immune system support
- Promote relaxation

OUR SERVICES

- **Equine Sports Massage**
- **Pre/post Competition Massage**
- **Rehabilitation Massage**
